OPPOSITION

To Weyler's Decree in Respect to the Sugar and Coffee Crops.

Especially Among the Spanish Element on the Island of Cuba.

The Conservative Party Have Decided to Ask the Home Government to Recall the General—Consul Lee Wants an Investigation of Govin's Death.

KEY WEST, Fla., Aug. 31.—Great excitement prevails in Havana over Weyler's decree in respect to the sugar and coffee crops. It is believed, if issued, the decree will be strongly opposed. Serious complications are expected from the Spanish element. It is rumored that the conservative party held a secret meeting and decided to ask the home government for Weyler's recall, and, if refused, to forcibly expel him as was done to Gen. Dulce in the last war.

It is understood that Consul Lee has strongly protested against the notice posted at the entry of the Cabana fortress, stating if the American consul present himself there to detain and arrest him. Lee has also demanded that Weyler make a full investigation of Charles Govin's death.

It is further reported that Quintin Bandera and 60 followers have crossed the southern section of the trocha and are now operating around Poso Redondo and that Bandera will assume command of the forces in Havana province, heretofore under Gen. Zayas, who was killed in a recent engagement.

TERRIBLE DISASTER

On the Pike's Peak Cog Road Narrowly Averted.

COLORADO SPRINGS, Col., Aug. 31.—What might have been one of the most disastrous railway wrecks of the year was narrowly averted on the famous Pike's Peak Cog road, just two miles above Manitou Sunday afternoon. The engine with one car completely filled with passengers left the summit of Pike's Peak shortly after 12 o'clock. Everything went well until one of the steep grades of the road, above the Manitou cog station, was reached when one of the connecting rods of the engine broke and twisted into a cylinder head. Control of the ponderous piece of machinery was lost immediately and it started down the grade with a frightful momentum. The engineer and fireman jumped to save their lives, and escaped with only a severe shaking up. The runaway engine remained on the rails for a distance of nearly a mile when just above Shady Spring it jumped the track and collided with a giant rock which it split in twain. The rebound sent the engine into a ravine 100 feet below. The engine preceded the passenger coach but was not attached to it. When the danger became apparent the signal was given for the coach brakes and the car was stopped before it also got beyond control, thus probably saving the lives of scores of tourists. In the car were a party of distinguished railway people, including General Manager Frederick Howard, of the London and Northwestern railway, and General Superintendent Turnbull, of the same road.

WHEELING, W. Va., Aug. 31.—Gen. Alfred Caldwell, Maj. Randolph Stalaker, of this city, and C. D. Wiedenheimer, of Braxton county, delegates to the Indianapolis convention from this (the First) district, left Monday for that city. They all favor a straight gold ticket, and oppose any endorsement of McKinley.

VIENNA, Aug. 31.—It is reported that an entente has been reached between Russia and Austria, by the terms of which the two governments will oppose the claims of the Armenians upon Turkey and will support the Sultan in the maintenance of his territory intact.

Ex-Premier Ribot Visits America.

NEW YORK, Aug. 31.—Alexandre Felix Joseph Ribot, ex-premier of France, arrived here on the French line steamer La Bourgogne Sunday morning. When seen on the pier he said that he was on an entirely private mission, and he preferred not to talk on any subject of current interest.

HAWAII'S TRADE

Diverted From the Pacific Slope to New York.

Exports From Honolulu to the United States Alone Doubled.

The Direct Shipments to New York Amounted to \$3,046,365.49 During the Calendar Year—Sugar Bounties in Austria and France Increased.

WASHINGTON, Aug. 31.—Consul General Mills at Honolulu, supplementing a former report calling attention to the diversion of Hawaiian trade from San Francisco to New York, writes to the department under date of August 13, that during the six months ending June 30, the total exports from Honolulu to the United States were valued at \$3,748,930.40, against \$4,409,016.27 for the corresponding period last year, an increase of nearly \$4,000,000. Of this total \$3,542,781.64 represents the value of sugar sent to America, \$2,457,833 of it going around the Horn to New York, except a small cargo which went to Boston.

Already during the present calendar year the direct shipments to New York have amounted to \$3,046,365.49.

Consul Muth, at Maderburg, in a report to the state department, says the first reply to Germany in reference to increased sugar bounties comes from Austria, where the consumption tax has been increased from \$4.45 to \$5.25 per 100 kilos raw sugar net, and the total amount of export bounty to be granted by the government has gone up from \$2,023,000 to \$3,041,400. The new law went into operation August 1 and lasts one year. France for the present has only increased the duty 68 cents on raw sugar and 87 cents on refined grades, per 100 kilos, to prevent German sugar entering the country to compete with her own product, but she is confidently expected to increase the secret export bounty soon or pay an open bounty to meet German sugar in the world's market.

SERGEANT BALDWIN.

Of the Signal Service Hadly Hurt to a Fall From a Balloon.

DENVER, Col., Aug. 31.—Sergeant Ivy Baldwin, attached to the signal service of the department of Colorado, fell from his balloon while making an ascension at Elitch's gardens Sunday, and will probably die of his injuries. As the balloon was released and rushed upward, a sudden gust of wind blew the aeronaut swinging from the trapeze against a tree, the shock dazing him so that he lost his presence of mind, and when above the tree tops he let go his hold, falling a distance of 100 feet. Both arms were broken, a hip dislocated and one eye was seriously wounded. He was taken to St. Anthony's hospital, where he lies unconscious.

Ivy Baldwin has had a romantic career, having given balloon exhibitions all over the world. About two years ago Capt. W. A. Glasford, who has been experimenting with balloons as a means of signalling in army work, induced Baldwin to enlist, and his peculiar knowledge of ballooning has been of great value. The aeronaut has been taking interest in the equipment of the new balloon park at Fort Logan, where practical operations were soon to be inaugurated.

LOGGING CAMP.

In Oregon, Destroyed by Forest Fires—Loss About \$40,000.

ASTORIA, Ore., Aug. 31.—Forest fires are still raging in the vicinity of Oak Point, Wash., but a change in the wind has deflected the flames northward and Oak Point City, as well as several canneries on the Columbia river which were threatened, are now out of danger. Benson's logging camp, the largest plant in this section, was totally destroyed by fire Sunday night. Loss \$40,000. Twenty square miles of heavy timber has been consumed, entailing a loss of nearly half a million dollars. The fire is now well back in the forest and several logging camps are threatened. Settlers have removed their stock and effects to places of safety, and so far as known no lives have been lost. The country for miles around is covered with a dense cloud of smoke and navigation on the Columbia is rendered very hazardous.

Pat a Bullet in His Brain.

PITTSBURGH, Pa., Aug. 31.—Malchior Diebold, a shoemaker of 104 Herron avenue, returned to his home Sunday morning from Wheeling, where he had been since August 11. The first thing that met his eye was a sheriff's sale notice, which had been posted on his door during his absence, and drawing his revolver, he shot himself through the head, dying in a few minutes.

CHINESE VICEROY

Visits the Tomb of Gen Grant on Riverside Drive.

NEW YORK, August 31.—The most interesting part of the programme Sunday was the visit of the Chinese ambassador to the tomb of Gen. Grant, on Riverside Drive. Li Hung Chang had a great admiration for Gen. Grant, who was one of his heroes. At an early hour in the forenoon a crowd began to gather in the vicinity of the Waldorf anxious to get a glimpse of the famous Chinaman. Acting Inspector Harley, with a force of 125 men stationed around the house, kept the people from crowding around the tomb.

The hour set for Earl Li's visit to Grant's tomb was 3 o'clock. Before that time the police stopped traffic and nobody was admitted into Thirty-third street. A dense mass of people lined the sidewalks along Fifth avenue as far as the eye could see. There were bluecoats stationed all along the route which was covered by the distinguished visitor. This was: Fifth avenue to Forty-ninth street, to the Boulevard, to the Riverside drive and the tomb. Acting Police Inspector Thompson was in command of 500 men stationed around the tomb and along the drive.

Col. Fred. Grant, accompanied by his son, Ulysses Grant, and by his brother, Ulysses Grant, of San Diego, Cal., arrived at the Waldorf at 2:20 o'clock. Mrs. Grant, the widow of Gen. Grant, who was staying at the Fifth Avenue hotel, was driven to Col. Grant's house, 35 East Sixty-second street, where Li Hung Chang was to visit her after the ceremony at the tomb was over.

An immense wreath which the ambassador was to place on the tomb of the dead general, was first carried down stairs from the viceroy's apartments. This wreath, carefully guarded by a member of Li's suite, was placed in a cab and taken to the tomb.

Li Hung Chang and party drove up Riverside drive opposite the tomb at 1:15 o'clock. His appearance was a signal for hearty cheering. There was a short delay while one of the Chinese attendants hastened back to a rear carriage to bring Li Hung Chang's sedan chair. When it arrived he was carried by four police from the road to the tomb. He carried an umbrella in one hand and a gold-mounted cane in the other. On reaching the top of the flight of steps Li alighted. The heavy iron door leading to the tomb was then opened. Li, after taking in one hand his floral wreath, entered the crypt and placed it on the iron casket. Before doing so he made a profound bow.

After remaining standing for 20 minutes alongside of the casket Li uttered several words in Chinese and made a profound bow. Stepping backward to the door he repeated the same words to himself and made a second bow. Then he withdrew. As he seated himself in the sedan chair the crowd uttered a rousing cheer. This seemed to please him greatly, for he gently nodded his head.

The entire party then entered carriages and were driven to the residence of Col. Grant, in East Sixty-second street. There a crowd of 3,000 people awaited him. Li declined the use of the sedan chair, and, leaning on the arms of Gen. Ruger and Col. Grant, he ascended the flight of carpeted steps and entered the drawing room, where the reception was held.
